
ARCHITECTURE QUESTION AND JUDGMENT
design intent
goals, risks, tradeoffs
architecture models
cost, latency, energy
requirements + rationale
scope, constraints, stakes
SCOPED ARCHITECTURE STUDY
revise claim or study
study question
intended decision
scope + claim
under review
linked artifacts
methods + tool returns
supported finding
limits + named owner
TOOL PATH
simulators / models
compiler / runtime
RTL / generators
EDA / signoff
common path for tool returns
finding or architectural decision
