EVALUATE THE RIGHT OBJECT

# Name the object, then judge the complete claim

**CHALLENGE ARTIFACT AND WORKFLOW**

varied conditions + red team + faults + interruption and recovery

## EVALUATION OBJECT

candidate design
method / component
configured technical system
complete human + technical workflow

## FOUR JUDGMENTS

architecture result
decision and evidence quality
total human + machine cost
reliability of the advantage

## MATCHED ALTERNATIVE

same task and checks
same budgets
same stopping rules
strongest practical comparator

**QUALIFIED CLAIM: SUPPORTED / UNSUPPORTED / UNRESOLVED - ASSESSMENT, NOT COMMITMENT**
