Relevant observations
Candidate and intended use; workload, tool, and operating scope
Matched proxy/reference results
Agreement checks
Held-out error and ranking; false acceptance and rejection
Agreement assessed against the declared decision tolerance
Bounded use
Use supported by the checks; retain assessed scope and limits
Reopen qualification when conditions change
Requalify before relying on the proxy
Missing evidence, inadequate agreement, or changed scope:
Collect matched reference results, revise the proxy, or defer use.
Assess agreement again under the intended conditions.
